Lab Instructions

Let's revisit the SimpleRoomsEnv environment. Go to the **lib\envs** folder and open the simple_rooms.py file.

By now you should be quite familiar with this environment, its different states, and how the reward structure is implemented.

Consider the following state in this environment:

Lab Question

1/1 point (graded)

Which four of the following represent transition probabilities and expected rewards?

- [x] s:1000000000000000 a:0 s':1000000000000000 p(s'|s,a):1 r(s,a,s'): 0
